## WHITE BRONZE

Men in all ages have shown a desire to immortalize their departed loved ones by erecting

## MONUMENTS

and very naturally they have sought out material that would

## LAST

not only during the lifetime of those who erected it, but

## FOREVER.

But like many of the world's greatest discoveries, men had to wait until the latter part of the nineteenth century to find a material that meets every requirement.

Careful scientific men, recognize in white bronze just what they want. We have a proof of this right here in our midst. Dr J. W. McNeill, after having White Bronze in use for about 15 years on his lot in the new cemetery,

Now Has Ordered

White Bronze Monument No. 503 to be erected in Big Rockfish Church Yard in memory of his sainted mother.

We can furnish anything from a marker 12 inches high to a public monument 40 feet.

### Cost of Imperialism to This Country.

Alvin (Texas) Commoner.

Imperialism has cost this government up to date, $250,000,000. The returns from this investment to date are 0.

This statement includes transportation and construction, but not any appropriations growing out of the Civil War or the Spanish War. During 1897, the Austro-Hungary Army, 354,196 strong, cost in round numbers $56,000,000; the French Army, 538,759 strong, cost in round numbers $125,000,000; the Germany Army, 589 000 strong, cost in round numbers $136,000,000, and the Italian Army, 273,000 strong, cost in round numbers $45,000,000.

All the war budgets of the Continental armies include not only the cost of maintaining the standing army itself, but the charges arising from past wars. Thus the war budget of Germany, which is $136,000,000, carries with it the expenses arising out of the war with France and the war with Austria.

The French war budget, which is $125,000,000, includes the expenses growing out of the late war with Germany, as well as pension claims, etc.

Concluding a long statistical editorial on this subject, giving official figures, the St. Louis Republic says:

These figures are not disputed. Their correctness is admitted.

The debate on the army bill has brought out these additional important facts concerning the cost of the military establishment of President McKinley, Emperor of the Philippines, and Tax Collector of Puerto Rico. The cost of the military establishment per capita of population is: In Austria, $1 25; in France, $3 25; in Germany, $2 59; in Italy, $1 47. In the United States, including appropriations for the cost of the present war, and the expenses growing out of past wars, it is $4 16.

In other words, every man, woman and child in this country is taxed, by the present system of "benevolent assimilation" in the Philippines, and 15 per cent. of Dingleyism in Puerto Rico, $4 16 every twelve months for the maintenance of the standing army and the payment of pensions.

### The Amendment.

F. D. Winston.

Every great movement in the constitutional life of any people has a sure foundation. A people's fundamental law changes slowly. In the dawn of constitutional liberty in America the cry of the "divine right of kings" was drowned in the surging cry that the people must have voice in the councils of State.

In these closing hours of a century the descendants of the men who declared against the rule of enlightened kings, dare to provide against the rule of the benighted slave. In the light of its unwise bestowal and in the fuller light of the base uses to which it has been put we of North Carolina declare that the ballot in the hand of the ignorant black man is a menace to our civilization.

### General Buller's Misfortunes.

Baltimore Sun.

The "roasting" General Buller gets in the report of General Roberts, just published in the Gazette and other papers, portends, it is believed, his removal from the command of the British army in Natal, just as the publication of Roberts' criticisms upon General Gatacre's mismanagement at Stormburg portended that officer's removal to England. The publication of such criticisms would, of course, be a useless cruelty and demoralizing to the troops in Natal if not intended to prepare the public mind for a change of commanders. The gist of the objection to Buller is that he did not enforce obedience to his orders on the part of officers under his command. Buller's plan in his second effort for the relief of Ladysmith was to have General Warren cross the upper Tugela far to the left of Colenso and make a wide circuit toward the besieged town. But Warren took a different course and spoiled it all. Buller's plan, says Roberts, was a good one. It promised success if followed up persistently. But Warren, without permission, abandoned it in favor of a plan of his own which involved the capture of Spion kop, and after the kop was taken Thorneycroft, in turn, without Warren's permission, abandoned it unnecessarily, with the result of defeating the entire movement. And General Buller amiably acquiesced in this virtual insubordination.

He had had a like experience at Colenso when he made his first movement to cross the Tugela for the relief of Ladysmith. On that occasion, ignoring explicit orders from Buller to await the support of infantry and then to proceed to a certain spot with his cannon, Colonel Long darted forth with his guns without waiting for his supports and took an exposed position far in advance of the place designated by his commander, with the result that his men were shot down, eleven cannon were lost and the whole plan of operations was wrecked. Both Colenso and Spion kop were failures due to disregard of orders on the part of subordinates, and are to be compared, in a small way, with the failure of Lee's attack on the third day at Gettysburg by reason of the failure of one of his lieutenants to co operate promptly, as directed. The commander's strategy and the private's courage are alike futile if subordinate officers do not execute orders, but proceed to carry out ideas of their own.

The want of discipline betrayed in the actions at Colenso and Spion kop are by no means creditable to the British Army. The world cannot but see with amazement important battles lost and hundreds of lives sacrificed for want of the obedience that every officer owes to his superior.

South Africa has already been the grave of many reputations. In Natal Generals Symons, White, Buller and Warren have come under criticism for indiscreet attacks and virtual defeats. In Cape Colony Methuen failed signally at Magersfontein and Gatacre at Stormburg, while Kitchener is much blamed for his indiscreet attack and reverse at Paardeberg. Generals Roberts, French and Pole Carew are the only prominent British officers who can be said to have added to their reputations. As the tug of the war is yet to come, it is not without reason that the British commander-in-chief seeks to get rid of wooden headed subordinates.

### Louisville Reunion Notes.

Every year increases the number of Confederate Veterans who meet at the Reunions. That to be held in Louisville, May 30th to June 3rd, will be the largest yet assembled and represent more Camps of United Confederate Veterans.

At the Fourth Reunion in Birmingham, Alabama, there were 470 camps. At the Fifth Reunion in Houston, Texas, there were 577 camps. At the Sixth Reunion in Richmond, Virginia, there were 815 camps. At the Seventh Reunion in Nashville, Tennessee, there were 875 camps. At the Eighth Reunion in Atlanta, Georgia, there were 1,130 camps. At the Ninth Reunion in Charleston, South Carolina, there were 1,180 camps. At the Tenth Reunion in Louisville there will be 1,400 camps. It is expected that there will be more Confederate soldiers pass in review on the great parade than will ever gather again in this world.

Many of the United Confederate Veteran Camps, latest in formation, are from the extreme West:

John H. Morgan Camp, No. 1198, San Diego, Cal.

Hi Bledsoe Camp, No. 1201, Santa Ana, Cal.

Beauregard Camp, No. 1205, Denver, Col.

Camp No. 1217, McGhee, Ind. Ter.

Geary Camp, No. 1230, Geary, Oklahoma.

Stonewall Jackson Camp, No. 1235, Hartshorne, Ind. Ter.

Confederate Veteran Camp, No. 1239, Weatherford, Oklahoma.

Upshur County Camp, No. 1240, Gilmer, Texas.

Col. Julian S. Carr, the millionaire tobacco manufacturer, of Durham, N. C., will bring a large delegation to the Confederate Reunion in Louisville, May 30—June 3. They will be attractively uniformed. Another famous North Carolina command will bring its famous legend, "First at Big Bethel; Farthest at Gettysburg, and Last at Appomattox."

Many of the Veterans while in Louisville will look up the place where Father Ryan, the poet-laureate of the Confederacy, died. It is the site now occupied by the splendid new church of St. Boniface on Green street near Jackson.

*The Board of Aldermen of The City of Fayetteville do ordain:*

1st. That W. M. Morgan and R. P. Gray, hereinafter called grantees, their heirs, executors, administrators, associates and assigns, be permitted and empowered to erect, construct and operate a system of electric wires and poles, and they are hereby given the right and granted a franchise to so erect a system of electric wires and poles throughout the City of Fayetteville, upon such streets and in such places as said grantees may deem best, for the transmission and sale of electric power and lights, the placing of said poles to be under the supervision of the street committee of the City of Fayetteville.

2nd. That the said grantees are hereby authorized and empowered to deliver and sell, in any part of the City of Fayetteville, not inconsistent with public safety, electric power, for any and all purposes for which it may be used, electric lights to the corporation of the City of Fayetteville and to any person or corporation; Provided, however, the same shall be operated and maintained without creating any nuisance to the City of Fayetteville, or any of its citizens.

Said wires shall be safe guarded as is customary for wires used for the same purpose in cities of like size and importance as the City of Fayetteville.

3rd. The said grantees are authorized and empowered, and a franchise is hereby given unto them, to build and construct a system of electric railways upon its streets throughout the City of Fayetteville, except streets less than sixty feet from outside curb to outside curb, and such streets as are traversed by railroads. The said road, or roads, shall be so constructed as to not unduly interfere with the usual travel upon said streets, more than is customary in cities of similar size, nor endanger the life or property of the citizens of the said City of Fayetteville; Provided, however, that the said grantees in the transmission and sale of electric power and lights shall not be compelled to build and operate an electric road as hereinbefore provided for, unless they, in their good judgment, may see proper.

Nothing herein contained shall interfere with the trolley line proposed to be built by Dr. J. W. McNeill from Cumberland Mills by way of Hope Mills to the Cape Fear River, and in no event shall the said grantees be permitted to use any of the bridges or sidewalks of said City of Fayetteville.

4th. That the said grantees within twelve months shall begin the erection of poles and wires for the transmission and sale of electric power within the City of Fayetteville, and may from time to time thereafter increase the number of said poles and wires as the demand therefor may justify. The failure of said grantees to so begin work within twelve months, and sell power within two years, shall be construed as a forfeiture of this franchise, unless the same shall be extended by the Board of Aldermen of the City of Fayetteville.

5th. That during the construction and operation of said street railway, power and electric light plant, the said grantees shall defend and save the City harmless in and against any suit for damages therein resulting to any person or property by the acts, omission, or negligence of said grantees.

6th. That the said grantees shall at all times conform to such rules and regulations as may be made by the Board of Aldermen as to the obstruction of the streets, and rate of speed, and that the said City shall not require less than a minimum of ten miles per hour.

7th. That in addition to the ordinary tax said grantees shall pay a privilege tax of not more than $25 per annum, said tax to be due and payable on January 1st, after the commencement of the running of the cars on said road.

8th. Locomotive engines shall not be used as motive power at any time on the lines of said railway, without the consent of the Board of Aldermen. The track of said street railway shall be so constructed and laid down as not to obstruct or impede the free flow of water across the streets or down the gutters thereof, and in laying the same the said grantees shall conform to the grades of the several streets used by them, as the same are now or hereafter as may be established, and where changes of grade are necessary, permission shall be obtained to make the same; and in case of the change of grade of any street by the city after the said track is laid, the grantees, at their own expense, shall conform the portion of the street occupied by them to the new grade; the space between the track shall be kept level with the top of the rails, and shall be kept in good order and condition by repairing, paving and repaving, wherever and whenever necessary at the cost and expense of said grantees; so that the portion of the streets occupied by the tracks may be safe and convenient for travelers with their teams, carts and carriages at all times; and the said work in every respect shall be under the supervision of the street committee, and a failure to operate said street railway for more than one year shall work a forfeiture as to the franchises of said street railway, and the grantees shall have a right within sixty days to remove all obstructions, etc.

9th. The fare on said cars for passengers shall not exceed five cents for each passenger each way, the payment of which shall entitle such passenger to one transfer to another line of cars, when the cars come in contact, but only for one continuous trip within the limits of the City. Children under four, when accompanied by paying passengers, shall be transported free of charge, and they shall charge not over five cents per hundred pounds, or less, for the carriage of freight of the lowest class in the limits of said city, other freight to be carried in the same proportion according to the classification.

10th. The said grantees shall have the right, power and franchise to build, erect and operate within the limits of the City of Fayetteville, at any place not inconsistent with public safety and health, and subject to the supervision of the Street Committee of the City of Fayetteville, all such stations, power-houses, switches and relay stations as may be necessary to the diffusion of power and the maintenance of said electric lights, power and street railway systems.

11th. This franchise shall be in full force and effect for thirty years from the ratification hereof and subject to the terms heretofore expressed.

### QUESTION ANSWERED.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for Indigestion or Biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and had with headache and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by B. E. Sedberry & Sons.

### NOTES ON THE CONVENTION.

The Raleigh Post says:

A new State Executive Committee was chosen with Senator Butler at its head.

Congressman Southerland of Nebraska addressed the convention in an able speech, the worst feature of which was an eulogy of Butler. He steered clear of the amendment and all local matters, and paid Col. William J. Bryan a high tribute.

Senators Allen and Pettigrew did not come, Senator Allen being sick in Washington and Senator Pettigrew being called to New York on business.

The convention was not largely attended. There were something like 250 delegates present.

H. F. Seawell, the temporary chairman, was made permanent chairman.

Senator Butler's course in the Senate was endorsed and the support of the Populist party pledged to him for his re-election as United States Senator.

### Too Many Candidates for the Hens.

Wilson News.

The editor of the Jonesboro Progress should be arrested for his proposed cruelty to animals. He is getting ready to overwork all the hens in his reach, for he says:

"We see that there has been found in the eastern part of the State, the customary egg with the initials of the candidates on it. This time it is Bryan. For $1 a piece we will furnish one to every candidate in the State, with his name spelled out in full, and for fifty cents extra will include the office they want."

### Shot While Attempting Robbery.

Last Thursday at 1:30 o'clock special night watchman Mr. Geo. Shepherd shot and captured a well-known young colored man named Ed. Adams while in the act of breaking into Mr. A. Garrason's store on Hay street. About 8 o'clock Chief of Police Flowers arrested Eugene Roberson, another young colored man, on the charge of being an accomplice.

Mr. Shepherd, while on his rounds early that morning, heard a noise in the rear of Garrason's store, and on approaching to investigate, was met with a shower of brickbats, none of which, fortunately, struck him. He shouted to his assailants repeatedly to surrender or he would shoot. Instead of obeying, one of them attempted to run by him, but was stopped short with a bullet in his thigh. Mr. Shepherd then blew his whistle, and Policemen Benton and Woodall were soon on the scene. They carried the wounded man to police headquarters and physicians were summoned. They found the left thigh broken in two places, one where the bullet entered just above the knee, and the other at least twelve inches higher up, but where there was no indication of a fracture. The bullet could not be located, and how it ranged upward is a mystery.

It was through Adams's confession that Roberson was arrested. Both men were given a preliminary hearing before Mayor Cook Friday morning and bound over to court.

When interrupted the negroes were at work on the back door with a long piece of iron pipe and had almost succeeded in prizing it open. Mr. Shepherd fired two shots, one of which took effect, as above stated, and the other grazed the fore-finger of the right hand. Adams was a corporal in the 2nd North Carolina colored Regiment during the war with Spain.

### The University Catalogue.

The Catalogue of the University of North Carolina for the academic year 1899-1900 has just appeared. It is a well printed and attractive book of 123 pages from the University Press of Chapel Hill. The entire work, typesetting, printing, and binding, was done by the students of the University. The following facts from the annual register are of special interest:

The total registration for the year is 512, the largest enrollment in the history of the institution. This total is distributed among the departments as follows: Graduate School, 26; College for Undergraduates, 345; Law School, 80; Medical School, 44; School of Pharmacy, 20. The enrollment in the last Summer School was 161, making a grand total for the year of 658, exclusive of all duplicates.

Of the 512 students at the regular session, 483 are from North Carolina, representing 82 counties. Thirteen other states are represented by 29 students.

The Faculty of the present year consists of 20 Professors, 7 Instructors and 8 Assistants offering, in the College and Graduate Schools, a total of 110 courses, and in the Schools of Law, Medicine and Pharmacy, 32. The Faculty of the Summer School numbered 20, offering a wide range of courses to the teachers of the state.

Attention is also called by the Catalogue to the increase of the University equipment by the erection of two new buildings, the Carr Hall for dormitories and the Alumni Hall for recitation rooms and executive offices.

The Catalogue went to press too early for an announcement of the new arrangement of the College year and of the plan for the continuous session through the summer. This will appear in a separate circular.

### DEMOCRATIC RATIFICATION MEETING.

FAYETTEVILLE MONDAY, APRIL 30TH, 1900

Mounted Procession. Old Time Vance Welcome.

The Democratic candidates for State offices—Governor, Lieutenant Governor, Secretary of State, Treasurer, Auditor, Attorney General, Commissioner of Agriculture, Commissioner of Labor and Printing, two Corporation Commissioners—will address the people of this section of North Carolina at Fayetteville Monday, April 30th, and the people of Cumberland, Robeson, Scotland, Richmond, Bladen, Sampson, Harnett and Moore, and other counties are invited and expected to join in extending to those representatives of the White Womanhood and Manhood of North Carolina an old-time Highland welcome such as we used to give the lamented Vance in the days of yore.

A mounted escort will attend the candidates to the grounds, and it is likely that many a "red shirt" will be seen among the crowd as it will tend to emphasize where you stand on the burning question of White Supremacy.

The ladies are cordially invited to come out and hear these advocates of all that is noble and good in our civilization, as special provision will be made for them.

The men should come prepared to join the mounted procession, but come anyway and give one day to the white women and men of North Carolina, and let's declare to the world thus early in the campaign how this section shall go.

### Upland Rice.

We have several times called attention to the practical demonstration of the profitableness of upland rice culture which several of our Cumberland farmers have made. Professor Gerald McCarthy, Botanist of the Agricultural Department, sends us some notes on this subject which we commend to all concerned, as follows:

Every farmer living east of Hillsboro or Charlotte who has any naturally moist land, should plant a little rice upland this year. Recent reports from Alabama claim a yield of 70 bushels of rough rice per acre and two tons of straw. The present market price for upland rice, in chaff, is 65 cents per bushel. The crop is as salable as cotton. The United States imports more than half the rice it consumes, although there is a duty of 2 cents per pound. The straw, when well cured, is nearly as good as baled timothy for horses and mules.

Rice with shells removed, but not polished, is a strong food and far more wholesome than corn meal for inhabitants of a warm climate. As a fattening food for fowls and pigs, rice has no equal. There are now on the market several excellent hand and power machines for removing the shell or husk from rice. These cost from $50 to $200. The larger sizes are suitable for grist mills, the smaller for farm use.

For uplands the White Carolina seed is best. It should be soaked 24 hours before planting and then be dropped in freshly made drills 20 inches apart and covered 2 inches deep. Cultivate with a shallow scrape. One hand weeding will be necessary. The crop must be kept as clean as cotton. Cut the crop as soon as the seed is in the tough dough stage. Tie in bundles and shock as wheat. Thresh from shock as soon as the straw is completely cured. The grain should be aired once in the sunshine before being put in bins to prevent heating.

One bushel of rough rice or paddy will sow one acre. The seed will cost about $1 per bushel. It can be bought of any commission merchant in Wilmington, N. C. The Worth Company is reliable.

In the neighborhood of Raleigh rice seed should be sown between May 1st and May 15th. The crop should be fertilized with stable manure or cotton seed meal and kainit.

Those farmers who are hustling to get in a big cotton crop this year will do well to put in a patch of rice in order that there may be something to eat while waiting for the price of cotton to go up to cost of production.

### CURRENT COMMENT.

The Durham Recorder has issued an unusually fine twenty-eight page illustrated industrial edition, giving much interesting information as to the progress and industries of that city, with pictures and biographic sketches of its leading men, and cuts of public and business houses, and private residences. It is beautifully printed on fine paper, and is one of the handsomest editions of the kind which we have seen.

We regret to learn of the illness of Mr. Elias Kelly.

Mr. W. A. Wadsworth has gone to Villanow on business.

Mrs. Aaron Damdson spent Thursday visiting Miss Flora J. Wadsworth.

Mr. B. R. Tyson is manager for the anti-amendment gang in this section, and is distributing quite a number of the Caucasian. The writer was favored with two copies of the above-named paper from Mr. Tyson's office and after they had been perused, and a paragraph on page 2, column 1, marked, where the Caucasian asserts that Senator Stewart "was instrumental in having left out of that fifteenth amendment the provision guaranteeing that negroes should hold office," and appropriately marked a place at a paragraph on page 3, column 2, where the Senator is quoted as saying: "I wanted to insert the right to hold office in this proposition." We then returned the paper to Mr. Tyson, asking an explanation of the Caucasian's assertion, and Senator Stewart's position, on that negro office holding question, but at this writing we have received no reply.

We regret to learn of the serious illness of Mr. Edgar M. Underwood.

It was with sorrow that the many friends of Rev. Jesse L. Wicker learned of his death which occurred at his home in Durham on last Sunday. Rev. Mr. Wicker was a native of Moore county, and one of her brightest and most promising sons. Less than thirty years ago, when a mere boy, he began his career as a turpentine laborer, but by dint of application and unceasing toil, he raised himself from this humble walk of life to be one of the leading ministers of his church.

The smallpox scare has about subsided, though danger is not yet passed. So far no death has occurred and only one new case developed.

Miss F. T. Tyson, of Quiet, is visiting Miss Fannie Underwood.

Mr. Robert Cole spent Saturday visiting Mr. C. G. Wadsworth.

Mr. and Mrs. G. H. Lewis are visiting Mr. J. M. Wadsworth.

Work on the silk mill at Parkwood has just begun and contractors are making efforts to employ one hundred more laborers.

The greatest satisfaction is expressed at the nominations made at the Democratic State Convention last week. So far we have not heard a single charge against any one of the candidates—this is remarkable when we remember that many of the fusionists of this section are experts at handling personal charges.

The democrats are clamorous for Aycock to speak at least at one point in Moore county. DONTON.

### WASHINGTON LETTER.

From Our Regular Correspondent.

Washington, D. C., April 23, 1900.

Another ugly scandal has cropped up under the rule of the War Department, which cannot fail to add to the wave of public sentiment, daily becoming higher and stronger that will sweep the republican party, with its record of scandals, out of power. This particular scandal was uncovered quite by accident and its existence was not denied by Secretary Root, who is responsible for its continuance, although it was originated by Alger. It is, to speak plainly, the robbery of the Cubans, for the benefit of officers of the U. S. army. Hints of extravagant living by American officers in Cuba, and of large sums paid for their expenses, have been frequent, but it was not until within the last forty-eight hours that it became positively known that officers in the U. S. army were, in direct violation of law, drawing two salaries, one from the U. S. and one from the Cuban revenues. The ground upon which Secretary Root justifies this robbery is worthy of a shyster lawyer but not a member of the U. S. Cabinet. That the money drawn from the Cuban revenues by these officers, is not a salary from the U. S., and consequently their receiving it is not a violation of the law prohibiting two salaries. Mr. Root goes even further than that. He says this robbery was carefully considered and endorsed by Mr. McKinley and his entire Cabinet before it was started, and that he intends to increase the number of officers who are allowed to participate therein. But he won't unless prominent republican Senators who have expressed surprise and regret at the scandal, change their minds. The Senate has adopted a resolution, calling for the facts.

Experience doesn't always teach. Notwithstanding, the awful experience of our soldiers in the war with Spain, thousands of whom were made sick and unfit for duty, by eating the so-called canned roast beef, the War Department has ordered a big lot of the stuff sent to the Philippines for the use of our soldiers over there. Gen. Miles is as much opposed to this meat as he was during the war with Spain, and the War Department acted without consulting him.

Representative Livingston, one of the most level headed democrats in the House, says the republican leaders have determined to jam the ship subsidy job through at this session of Congress. Speaking of this deal, Mr. Livingston said: "I know that a conference of republican leaders was held, at which it was determined to push the ship bounty scheme at all hazards. I also know that the next day, Pacific Mail, which may fairly be considered the barometer of the scheme, shot up nearly four points on the New York stock exchange. The man who can't plainly discern a chain of cause and effect in this, is indeed blind. Obviously, somebody who attended that Conference communicated to the men who control the market for Pacific Mail securities, the news that the Ship Subsidy bill would be brought forward and rushed through at this session, under the party lash. It would not surprise me if a special rule for its consideration and passage should be prescribed by the Speaker's Committee. Such a rule, it may be confidently expected, will limit debate almost to the vanishing point. Indeed, it may be that all debate will be cut off on the bill in the House. I believe they are waiting for a time when an unusual number of democrats are absent from the House, to force the bill forward for a needed consideration. The republicans are bound to get this bill through. I am informed that a large part of their campaign fund depends upon its passage. Therefore, it behooves us democrats to keep our eyes peeled for the ship-subsidy scheme. Every mother's son of us ought to stay right here in Washington until the session closes and keep a sharp lookout for the Hanna-Payne bill."

It was an Ohio man—John Sherman—who originated the phrase which has become so widely used: "I'm going home to look after my fences." Mr. McKinley, who is in Ohio, this week, said before leaving Washington, that he was going to "look after repairs to my house", which is a slight deviation from Sherman's words, but means the same thing to the initiated. It was not a mere coincidence that the repairs upon Mr. McKinley's house, at Canton, should require his personal attention during the same week in which the Republican State Convention will be held at Columbus.

Senator Wellington has formally left the Hanna-McKinley party, and made this announcement: "I was opposed to the permanent acquisition of the Philippines, and to the 15 per cent. duty on Porto Rican imports to the United States. This being my position, I do not intend to support a platform that is against my convictions in such important particulars. I do not intend to remain a member of the republican National Committee, nor to attend the National Convention." There are numerous prominent republicans in both branches of Congress who believe just as Senator Wellington does, but whether any of them will show that they have the courage of their convictions by following his example remains to be seen.

### Mr. H. L. Cook for Elector.

The Democrats of Cumberland do not forget, and they ask the Democrats of the rest of the Third Congressional District to bear in mind, that Henry L. Cook, Esq., the present able and very efficient chairman of the Democratic Executive Committee of this county, was unanimously endorsed by the Democratic county convention for the responsible and highly honorable position of Presidential Elector for this district. They will present his name to the Congressional convention, and they venture to express the hope that his eminent fitness for the place will secure his election by acclamation.

Mr. Cook was county chairman in 1890, and again in 1892 until nominated to represent Cumberland in the House of Representatives of 1893. In the Legislature of 1893, he served with great credit to himself on important committees, and rendered good service to his county, to the District and to the State. He was a member of the State executive committee from 1896 to 1898. His present position of county chairman, in which he is exhibiting so much vigor and executive capacity, came to him entirely unsought, the county leaders, with one accord, designating him as the man for the great work before us. He was the nominee of the County for Solicitor in 1894 and for Judge in 1898, and received a flattering vote therefor, in the District conventions, on both occasions.

Mr. Cook is an able lawyer, a speaker of unusual powers, aggressive, forceful and fluent; and he is thoroughly posted in the politics of the day.

## RALEIGH LETTER.

Political and General News and Gossip from the State Capital.

Populist State Convention—It Was Without Enthusiasm or Life and Slimly Attended—The Ticket Named a Cut-and-Dried Affair---Republican Convention May 2---Good News From All Over the State—Numerous Items of Interesting News—Minor Mention, Etc.

From Our Regular Correspondent.

RALEIGH, N. C., April 23,—The State convention of the Populist party, which assembled in this city last Wednesday, was in marked contrast to that which packed to overflowing the same hall a week previously.

Not only was the contrast remarkable in point of numbers, but the utter absence of enthusiasm and the forlorn and hopeless expression of countenance worn by the delegates furnished material for even more conspicuous comparison.

Neither Senator Allen nor Senator Pettigrew was present, however, after all the ante convention heralding they had received through the Populist papers and politicians.

It is very evident that the Populists, as a party, are but a shadow of what it once was, but it was clearly demonstrated that fully 90 per cent of them left in the organization are Butlerites. The delegates on this occasion fell down and worshiped him on every available occasion.

REPUBLICAN CONVENTION NEXT WEEK.

Senator Pritchard, "Judge" Linney (now classically termed the "Bull of the Brushies"), and George White (the foul-mouth negro misfit of the second district), will come down from Washington next week and "hold a convention" of some sort, commencing on Wednesday, May 2.

CAN THEY KEEP THE "NIGGER" IN THE BACKGROUND.

It is no secret that Pritchard, Holton and the other Republican managers are very anxious to keep the negro in the background—out of sight as much as possible at the convention next week.

But can they?

Will such "obstreperous" negroes as George White, Jim Young and others forego the customary delights of a Republican State convention? It's doubtful, to say the least.

NUMEROUS NEWS NOTES.

The Ecumenical conference of the Methodist Episcopal church is in session at New York this week.

Standing Master J. E. Shepherd of the United States court goes to Wilmington to-morrow, where he will resume the hearing in the railroad tax assessment case. He expects to receive there the decision of Judge Simonton anent the examination of the books of corporations other than those of railroads.

It is reported here to day that Solicitor Ed. W. Pou, of Johnston county, will be a candidate for the Democratic nomination for Congress in the (Raleigh) district to succeed Atwater, Populist Democrat. Mr. Pou made the hopeless canvass for this office four years ago.

Visitors from eastern counties say tobacco acreage is being considerably curtailed, but that the acreage of cotton is being largely increased.

The friends of Maj. E. J. Hale are congratulating him on the magnificent vote (764) he received in the Democratic State convention for delegate at-large to the National convention, his name leading all the rest. And it was a deserved compliment; which also gives him primacy with the delegation.

Claude Kitchen, brother of Congressman W. W. Kitchen, of Halifax, Donnell Gilliam, of Edgecombe, Thomas W. Mason, of Northampton, and probably two or three other able and worthy gentlemen, are being pressed by their friends for the congressional nomination in the second district—to succeed the negro White.

The fish-game-and-oyster fair at Newbern last week was a great success, as usual. The fair was formally opened by Col. John S. Cuningham, of Person, who delivered a most appropriate and interesting address and was afterwards royally entertained by the citizens of Newbern.

The tour of the Democratic State candidates has been a triumphal one during the past week, and will continue for nearly two weeks yet. Reports received here from all sections of the State are very encouraging and gratifying to Chairman Simmons and all Democrats. The west especially seems to be waking up in great shape.

Three new Carolina cotton mill companies have been chartered within the last week—the "Dunlap" of Causey, Chatham county, N. C.; the "Buffalo" of Union, S. C., and the "Middleburg" of Batesburg, S. C.

I was told to-day that the new President of the Baptist Female University, to succeed Prof. Blasingame, late of Alabama, will be a North Carolinian. Good!

The cotton manufacturers have arranged to give a grand banquet the night following the meeting of the Southern Cotton Spinners' Association at Charlotte, May 10th.

The Teachers' Assembly begins its meetings this year at Moorehead June 12th, and an interesting programme has been arranged.

The State Grand Lodge of Knights of Pythias is in session at Durham this week.

In Louisburg last Friday a woman who had just been granted a divorce married one of the jurymen sitting on the case within an hour after the verdict.

The State candidates will be at the following places during the remainder of this week: Marion on Wednesday, at Shelby, Thursday, at Charlotte, Saturday, 28th. The remainder of the itinerary is as follows: Monday, April 30th, at Fayetteville; Tuesday, May 1, Rocky Mount; Wednesday, at Wilmington; Friday, at Newberne; Saturday, at Elizabeth City. The joint tour closes at Washington, Beaufort, County, Tuesday, May 8.

At the Department of Agriculture here it is stated that nearly 200,000 tons of Fertilizers have been sold in North Carolina, this year so far, and 250,000 tons will be sold altogether. This is 100,000 tons more than were sold in 1899, and is said to indicate that more cotton and less tobacco will be grown this year. LLEWXAM.

### An Appeal to the Democracy.

We earnestly commend to the attention of our readers the following appeal issued by Chairman SIMMONS:

RALEIGH, N. C., April 20, 1900.

*To the Democrats of North Carolina:*

We are engaged in a campaign of education. We want every white man in North Carolina to understand the amendment. We want no white man in North Carolina to be misled by the miserable falsehoods and misrepresentations that our enemies are circulating with reference to this measure. It is certain that, if the white people of the State do understand the amendment, its effect upon the State and the individual citizen, they will give it such a majority as no measure submitted to the people has ever before received in the history of the State, and will give the ticket representing this measure the most decisive majority of recent years.

To print and distribute literature and to circulate papers and to defray other necessary expenses of such a campaign as we are now engaged in is expensive and requires ready money. Your committee is practically without funds. Indeed, for the last three weeks it has been borrowing money to meet current expenses.

The committee takes this method of appealing to the Democrats and all the friends of good government and white supremacy in the State for contributions to pay the legitimate and necessary expenses of the campaign. We feel sure this appeal will not be in vain.

Contributions can be sent directly to the chairman of the committee at Raleigh and will be duly acknowledged.

Yours truly,

F. M. SIMMONS,
Chairman.

### Popular Vote for Senators.

The text of the proposed Amendment to the Constitution, which passed the House by 240 to 15 on the 13th instant, and which is now before the Senate, is as follows:

"The Senate of the United States shall be composed of two Senators from each State, who shall be elected by a direct vote of the people thereof for a term of six years, and each Senator shall have one vote. A plurality of the votes cast for candidates for Senator shall be sufficient to elect. The electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislatures, respectively.

"When a vacancy happens by death, resignation, or otherwise, in the representation of any State in the Senate, the same shall be filled for the unexpired term thereof in the same manner as is provided for the election of Senators in paragraph one: Provided, that the executive thereof may make temporary appointment until the next general or special election, in accordance with the statutes or constitution of such State."

In almost every neighborhood there is some one whose life has been saved by Chamberlain's Colic, Cholera and Diarrhœa Remedy, or who has been cured of chronic diarrhœa by the use of that medicine. Such persons make a point of telling of it whenever opportunity offers, hoping that it may be the means of saving other lives. For sale by B. E. Sedberry & Sons.

### White Supremacy Club—How the Candidates Will Be Received.

An adjourned meeting of the Club was held Tuesday night to hear from the several committees now at work and to arrange for a large and enthusiastic meeting to perfect arrangements for the reception of the candidates on the 30th. All of the committees reported progress, and on Friday night, when a final report is to be made, the good and vigorous work that is now going on will be shown. Reduced rates of a fare and a third have been secured from the railroads, ten thousand posters and other notices have been gotten out, a fine cypress pole of about 80 feet lies near Market Square with workmen busily engaged getting it in shape, while a lusty white game cock, lately sent by express to Mr. W. C. Troy, is loudly proclaiming that "victory is in the air." The old cannon is also being burnished up, and from the hill top will announce the advent of the 30th in proper shape. And, best of all, it is reported that the ladies of the County, who, by the way, are always right, are thoroughly aroused. Many are now making precinct flags and expect to be with us, along with fathers, husbands, brothers and sweethearts,—and royally will we welcome them.

On motion, after hearing from the committees, the meeting adjourned to meet again Friday night after the city ratification meeting. This meeting will be a large and enthusiastic one, as a number of short and ringing speeches will be provided for the occasion. Friday night let everybody come.

### Killed and Robbed.

By telegraph to the Observer.

### The Louisville Reunion.

CIRCULAR LETTER No. 120.

New Orleans, La., April 9.

My Dear Comrades:

The delay in answering your letters, communications, and attending to your requests and orders has been occasioned by my absence at Louisville for nearly a week.

I went there at the invitation of the Reunion Committee to inspect their work, and advise with them. I found them a splendid body of Confederate Veterans, patriotic to the core, enthusiastic and painstaking even to the smallest details, and thoroughly imbued with the idea that they intend to make this tenth reunion the greatest of all. They are leaving nothing undone to make your visit to Louisville pleasant, agreeable, comfortable and noteworthy, and they are determined that when you leave there that you shall carry to your homes nothing but good impressions and happy memories of your visit to the "Falls City."

The reunion hall which they have built especially as your meeting place is very large, commodious and beautiful, and will seat fully 10,000.

Those who are unable to pay while there will be taken care of gratis by the committee; those who are able to pay can secure board at many of the hotels, and at plenty of private houses, and boarding houses at from $1.00 per day up.

Railroad rates have been reduced, but we hope for a still further reduction. A fine band will be placed at each division headquarters to remain subject to the orders of the division commander in the parade and during the entire time of the reunion.

As has been customary at all of our reunions the parade will consist only of veterans, the sponsors, Sons of Veterans, Daughters of the Confederacy, distinguished Confederate guests, military escorts accompanying veterans and the reunion officials.

The department and division headquarters are all close to the reunion hall, and within a radius of three blocks of each other.

Make your arrangements to go, and take your families, and every one you can, and you will receive a regular Kentucky welcome, and will be the recipients of that boundless hospitality which the golden-hearted people of Louisville know so well how to dispense. Fraternally,

GEO. MOORMAN,
Adjutant General and Chief of Staff.

### News of Interest.

Republicans of the Senate claim that the President as commander-in-chief of the army has powers far beyond what Congress may confer upon him as President.

The New York World says Governor Taylor, of Kentucky, is in that city in consequence of the finding of a bill for murder against him in Kentucky and that he has appealed to Governor Roosevelt not to surrender him on requisition.

Republican Senator George L. Wellington, of Maryland, will become a working member of the Democratic party after the close of the present session of Congress if he keeps to his expressed intention.

He has already announced that he will not support McKinley if he should be nominated. The Senator will take no overt political action until McKinley's nomination shall have been made.

With an ex-President of the United States, Benjamin Harrison, to bid them welcome, there was gathered Saturday in Carnegie Hall more than two thousand missionary workers from every quarter of the globe. For ten years preparations have been under way for this meeting known as the Ecumenical Conference of foreign missions. It is the third of its kind ever held. Every branch of the Christian church is represented except the Roman Catholic, the Greek and that branch of the Anglican church known as the Society for Propogation of the Gospel.

President and Mrs. McKinley left Washington at 7:20 o'clock last night for a visit of several days to Canton. Accompanying them were Secretary Cortelyou, Dr. P. M. Rixey, George Barber, a nephew of the President; Mr. William S. Hawk, a friend and Mr. Leonard, a stenographer. The President and Mrs. McKinley will inspect the work which has been in progress on their Canton home and return to Washington probably Friday.

## PAINFUL PERIODS NO MORE

MRS. GEORGE OSMUN, of Belvidere, Warren Co., N. J., writes: "Suffering as I had from weakness, irregularities and backache for several years, a release from this suffering was a blessing. Oh! how I wish more suffering women would accept your kind offer and be relieved. There is no need for women to suffer. Mrs. Pinkham's advice and Lydia E. Pinkham's Vegetable Compound will relieve them."

MRS. IDA PETERS, Milan, Tenn., writes: "DEAR MRS. PINKHAM—When I wrote to you the first time asking your advice I was a great sufferer. Menstruations were irregular, sometimes a week too soon and then a week or two late, and when they appeared were very profuse; great pain and tenderness in the bowels, pain in back and limbs, leucorrhœa all the time. I was weak and nervous and had no appetite. Burning and choking sensation in my throat. I received your reply and followed all your instructions and now I am cured. I owe my recovery all to Mrs. Pinkham's advice and her wonderful remedies."

ELLA E. BRENNER, East Rochester, Ohio, writes: "I have been thankful a thousand times since I wrote to you for what your Vegetable Compound has done for me. I followed your advice carefully and now I feel like a different person. My troubles were backache, headache, nervous tired feeling, painful menstruation and leucorrhœa. I took four bottles of Lydia E. Pinkham's Vegetable Compound, one box of Pills, one package of Sanative Wash and am now well."

MRS. MAGGIE P. STINE, New Berlin, Pa., writes: "I have suffered with terrible backache in the small of my back for about seven years, and could never get anything to help me. I tried several physicians, but found no help. I have now taken three bottles of Lydia E. Pinkham's Vegetable Compound, and feel like a different woman."

MRS. H. A., 124 S. Cedar Street, Owosso, Mich., writes: "Nearly three years ago I wrote to you asking advice in regard to my health. I was so miserable; suffered from painful menstruation and backache, was nervous, dizzy and faint. I received such a kind letter from you, telling me just what to do. I followed your advice and I now am recommending Lydia E. Pinkham's Vegetable Compound. I thank God for this pain destroyer."

### Mr. Godfrey Not a Candidate.

Correspondence of the Observer.

SPOUT SPRINGS, N. C., April 18, 1900.

MR. EDITOR:—I have been informed that I was spoken of through your paper as a nominee for the Legislature on the Democratic ticket for Harnett county. This was without my knowledge. I wish to say that I do not want my name used in the convention for two reasons:

First—That I am not competent to serve my people should I be nominated and elected.

Second—I cannot *leave* my business to take up politics.

Please publish and oblige,

Very Truly,

D. GODFREY.

P. S. Wishing Democratic victory and White Supremacy.

### A Horrible Tragedy.

By telegraph to the Observer.

Philadelphia, April 24.—Mrs. Kuhn, of Richmond, Va., is dying at St. Joseph's hospital, from terrible injuries. She was found lying in the yard of the Kuhn apartments clad in a night dress bleeding and unconscious. Her head and face were cut as with a knife, one leg was broken and her body badly bruised as if it had been kicked and beaten. Her husband was found in his bedroom partially dressed, on the floor, in a pool of blood, with his throat cut from ear to ear, but not deeply. It is believed he will recover. Kuhn is an ex State Senator.

"Housework is hard work without Gold Dust"

Care of Lamps

Many housekeepers think there is nothing to learn about the care of lamps, but if the little details here mentioned are adhered to there will be a great difference in the light. First, a lamp must be cleaned and filled every morning; the burners should be cleaned once a week, and the best way is to boil them in water to which

Gold Dust Washing Powder

has been added. Put a teaspoonful into a quart of water and boil ten minutes. The flues should be put into a pan of cold water and heated slowly until they boil, then take off and allow to cool gradually; this toughens the glass.

### Gen. Toon and Mr. Vanstory.

Greensboro Record.

Our esteemed townsman C. P. Vanstory is going to stick to his old friend Col. Toon, nominated on the Democratic ticket for Superintendent of Public Instruction.

All the candidates are to be here Tuesday evening at the Court House and Mr. Vanstory authorizes the statement that he is going to the station at 6:10 p. m. to meet Col. Toon with four iron gray horses and a tally-ho. Prof. Joyner, of the Normal, also a personal friend, will ride with Mr. Vanstory and Col. Toon.

"I tell you he is a great man and everybody will find it out, besides he is just as good a man as ever walked, but this time he is not going to walk; I am going to bring him up town in style. It's all my own get-up; the committees can look out for the others; I am going to take care of my old friend and do all I can for him," and he will.

So when you see a "coach and four" the stranger will be Col. Toon, the others Prof. Joyner and Mr. Vanstory.

### Hon. D. H. McLean.

Dunn Banner.

The many friends of Hon. D. H. McLean, of this county, and along the Cape Fear section regret that he was not successful in the State Convention for the nomination of Secretary of State.

He received a very flattering vote, as on the first ballot he led the field by fifty votes, having received on that ballot 390¾ votes. He would undoubtedly have been nominated had a farmer been nominated for Lieutenant Governor. Col. Cuningham, of Person, was defeated by Mr. Turner, of Iredell, who was a lawyer, and it was then stated that it would be dangerous to the Amendment to put another lawyer on the ticket. Mr. McLean withdrew his name from the contest, stating that he would surrender any ambition or aspiration, rather than imperil the success of the Constitutional Amendment, upon the ratification of which depended the salvation of the State. When the Convention adjourned, Mr. McLean was the most popular man on the floor. His friends were disappointed at his defeat but highly gratified at the high stand he occupied in the estimation of the people. Mr. McLean has a bright future ahead of him, and hence we all should be fully reconciled to his temporary failure. In recognition of his ability and gifts of oratory, he was elected one of the two Electors at Large by acclamation, Mr. Lee S. Overman, of Salisbury, being his running mate. These two gentlemen will carry the banner of Bryan and free silver to victory at the November election.

### Death From Overwork.

By telegraph to the Observer.

Jersey City, April 21.—Chancellor McGill died this morning from exhaustation through overwork.

### The Difference Between the Spaniard and the Boer as a Marksman.

A Washington telegram says:

The War Department has prepared an instructive statement, comparing the mortality of the Spanish-American war with that of the first six months of the present South African war, the purpose being to show that the casualities suffered by the American troops at the time of their occurrence (which are regarded in some quarters as excessive, and are the basis of much criticism) were actually very much less in number proportionately than those suffered by the British army up to date.

As to the British showing the statement covers the returns from October 11 to April 7, nearly six months. There were 309 officers and 3,944 men killed in action, by accident or by wounds and disease. There were set down as missing and as prisoners 168 officers and 4,722 men and 288 officers and 4,934 men invalided home, making the total British losses, exclusive of sick and wounded in the hospital in South Africa, 76 officers and 12,600 men. It is estimated that nearly 10,000 officers and men are sick and wounded in the hospitals, showing a loss in effective strength since the beginning of the war of about 23,000 men. The number of wounded is not stated.

During the war with Spain, the American army lost by death 107 officers and 2,803 men. There were wounded 113 officers and 1,464 men. Only 12 per cent. of the American death rate resulted from wounds or occurred in battle, while the corresponding rate for the British army is 63.13 per cent.

### The Queen's Return.

By cable to the Observer.

Dublin, April 24.—The Queen will leave Dublin Thursday morning and will return to Windsor by way of Hollyhead.

### China.

By cable to the Observer.

Paris, April 24.—A Pekin dispatch says that Chinese oppposition to the open door policy is growing and is endangering the lives of foreigners. Russia is most feared and America is least disliked, because least aggressive.

### Manchester's Andvanced Government.

The city of Manchester, England, which furnishes the most advanced example of municipal socialism, has made a new departure by adding manufactories of soap, tallow, oil, glue and fertilizers to its garbage and sewerage department. The city government now owns street car lines, gas, electric light and water works, ice factories, slaughter houses, cemeteries, cheap lodging houses, technical schools, art galleries and workshops for the manufacture and repair of its vehicles, tools and implements. It has reclaimed a large swamp by depositing its street cleanings and the solid matter found in its sewerage, and is now reclaiming another, by which it is expected to add several millions of dollars to the wealth of the corporation.

The most novel branch of the city government is a corps of housecleaners, who can be employed by the occupants of stores, flats, office rooms and residences to overhaul and clean their establishments as often as desired. A Manchester woman who desires her house cleaned can telephone to police headquarters, and a gang of scrubbers, sweepers, window washers, etc., will be sent at once to take up the carpets and relay them, and do her spring house cleaning in

**Mr. Dillon Jordan Married.**

Mr. Dillon Jordan, formerly of this place, now in the Hope Mills Company store at No. 2, was married Sunday to Miss Nora Faircloth. We wish him and his young bride much happiness.

**Death of A Confederate Soldier.**

Mr. A. E. McLean, of Vander, who was in town Saturday, tells us of the death, Friday night, of his neighbor, Mr. R. M. Averitt, who was a Confederate soldier, a faithful Democrat and one of our best citizens.

**Census Enumerators.**

The following persons Monday received their commissions as census enumerators for Cumberland county. More will be appointed in other districts: Cross Creek, Geo. W. Lawrance, Jno. E. Garrett and Alexander S. Hall; Carvers Creek, M. Bill; Flea Hill, H. E. King.

**Dr. Hill at the Presbyterian Church.**

Dr. H. G. Hill, the former beloved pastor of the Presbyterian church, this city, preached to his old congregation Sunday morning. Of course it was an able sermon, but it was more, it was a powerful one. Dr. Hill announced at the outset that it was a sermon that he had preached from the same pulpit twenty-eight years before, and, after listening to the almost seemingly inspired words, which the venerable minister delivered with unusual feeling, one did not have to wonder at the great hold Dr. Hill had on our people at that time, and for the rest of his pastorate here. His subject was the New Jerusalem, and, though preached so long ago, was startingly appropriate to the present time.

**For the Re-Building of the Arsenal.**

We find the following paragraph in the press dispatches sent out from Washington Saturday:

"Mr Thomas to-day presented voluminous petitions from citizens of North Carolina and New York for the re-establishment of a United States arsenal at Fayetteville."

The idea of petitioning Congress for the re-building of the arsenal originated with Gen. LeDuc, Secretary of Agriculture in Hay's administration, who, during his residence here, was so struck with the beauty of the site of the great arsenal destroyed by Sherman, and the magnificent location of Fayetteville for such an object, that he was enthusiastic on the subject. This too, it must be remembered, was before the late Spanish war, and the resultant and continuing foreign troubles which lends additional force to the proposition.

The Business College Course of Littleton Female College, Littleton, N. C., will continue through the Summer months, and immediate correspondence is desired with those who wish to take advantage of this opportunity.

**The Great Improvement of the Cemetery.**

It is worth a walk to the cemetery, specially, to see the vast improvement which has been effected there by Messrs. Lamb and Deal, under the supervision of Alderman Underwood. Remembering what it was a few weeks ago, the beautifaction of this resting place of the dead and the reclamation of parts of it from almost the condition of a wilderness, seems a feat of extraordinary merit. Mr. Lamb, as everybody knows, is one of the most skillful landscape gardeners to be found in America. Mr. Deal is a faithful contractor and master workman who always does his work well, and they both have done themselves, as well as the city, full justice in this matter.

It must be borne in mind, to the great credit of Alderman John Underwood, that it was he who conceived and inaugurated this pious work, and he deserves the thanks of the community therefor.

Littleton Female College, Littleton. N. C., desires immediate correspondence with four orphan girls, or young ladies, over sixteen years old, who desire to go off to school next fall.

**Remarkable Cure of Rheumatism.**

KENNA, Jackson Co., W. Va.

About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since.—A. B. PARSONS. For sale by B. E. Sedberry & Sons.

**Strange Case of Dr. Williams, "the Cancer Doctor."**

Our readers will remember seeing in these columns, recently, a paragraph stating that Dr. Williams had been admitted to the Home of the Aged and Infirm. Dr. Williams, for a number of years, has been quite a character in this community, professing to have a cure for cancer, the ability to remove warts and other unnatural growths, and, by this means, making a scanty living. Certain it is that he was a man of some ability, though his history was always shrouded in mystery, no one knowing whence he came or anything as to his previous condition. He recently suffered a stroke of paralysis, and being old and feeble, and without means of support, he was sent to the County Home for the Aged and Infirm.

A few days ago he confessed to Mr. McFayden, the manager of that institution, that his name was not Williams, but Quarles, and that his home was at Littleton, N. C., where he had left a wife and three sons ten years ago.

Mr. McFayden at once notified the family, and Sunday, one of the sons arrived here, went out to the County Home, recognised his father, and Monday he left with him on the noon train for Littleton.

Young Mr. Quarles, who seemed to be a well-to-do man, said that his father disappeared from home mysteriously ten years ago, and that after every effort had been made to find him, he was mourned for dead. When his father disappeared he and two other brothers were only boys, but now they were men, well off in worldly goods, able and willing to take care of their aged father as they have done of their deserted mother.

**County Committee Meeting.**

The Democratic County Executive Committee met in the office of Chairman H. L. Cook, Esq., at 11 o'clock. The attendance was gratifyingly large, as the notice was short.

Capt. J. D. McNeill was invited to address the committee on the plans for the big ratification meeting on the 30th, which he did in vigous style. There was an informal discussion and a general interchange of opinions, and much enthusiasm manifested. It is said that it was the most enthusiastic meeting of the "unterrified" so far this year. Among the plans adopted is that every precinct in the county will furnish a mounted delegation for the procession. Some townships pledged fifty, some one hundred, &c.

In some townships the ladies will present the committee with a white flag, emblematical of "white supremacy," and it is hoped every township and precinct will be honored in this way. The old men and the young men were all enthusiastic for the big meeting. Among those present were: H. L. Cook, chairman, J. D. McNeill, J. Marshal Williams, W. J. Smith, Josiah Cook, W. G. Holmes, S. B. Talbot, H. H. Bolton, W. C. Fields, J. H. Faircloth, E. R. McKethan, secretary of the of the committee, James Kirkpatrick, N. G. Biggs, —— Bedsole, Wignes, C. D. Gilmore, H. E. Smith, and quite a number of others whose names we could not get.

**The A. C. L. Consolidation.**

At a special meeting in Wilmington of the stockholders of the W. & W. rail road, the agreement made in Baltimore recently for the consolidation of all the companies comprising the Atlantic Coast Line system, under the name of the Atlantic Coast Line Railroad Company, was ratified.

In commenting upon the matter of the consolidation of the Atlantic Coast Line system into one big company, the Richmond Dispatch gives the following statement:

The mileage of the Atlantic Coast Line of Virginia is 100; of the Norfolk and Carolina 116; Atlantic Coast Line of South Carolina, 675 miles, and Wilmington and Weldon, 623 miles. The Atlantic Coast Line also controls the Charleston and Western Carolina, 399 miles; the Central of South Carolina, 41 miles; the Wilson and Summerton, 40 miles; Cape Fear and Yadkin Valley, 174 miles. This consolidation will give the Atlantic Coast Line a total mileage of 2,159.

**Death of Judge Atkins.**

Major John N. Prior received a telegram from Richmond Tuesday afternoon announcing the death of his brother-in-law, Judge Thomas S. Atkins.

Judge Atkins was a gentleman highly honored by the citizens of Richmond, was a lawyer of ability, and for several years held the position of Judge of the Hustings court. At the time of his death he was Master in Equity of the Richmond and Danville and Chesapeake and Ohio railroads. The death of Judge Atkins was not unexpected; he had been in feeble health for some time. He married the eldest daughter of Warren Prior, Esq., of this place, and leaves a wife, four daughters and one son to mourn his loss.

Major Prior left last night to be present at the funeral.

**An Interesting Bit of History.**

Gradually the past history of "Dr. Williams" whose true name is Mr. Crief Quarles, is coming to life. It seems that he was born in Halifax county, and went to West Point as a cadet from that Congressional district. He remained there but a short time, having to resign on account of his health, and his place was taken by Gen. Rob't Ransom, the famous Confederate cavalry General.

**The Best in the World.**

We believe Chamberlain's Cough Remedy is the best in the world. A few weeks ago we suffered with a severe cold and a troublesome cough, and having read their advertisements in our own and other papers we purchased a bottle to see if it would effect us. It cured us before the bottle was more than half used. It is the best medicine out for colds and coughs.—The Herald, Andersonville, Ind. For sale by B. E. Sedberry & Sons.

**Fayetteville and Silk Culture.**

In reply to an inquiry about a report that a planter in St. Thomas parish, near Charleston, S. C., has achieved a notable success in silk culture, and derives an annual income of from $6000 to $8000, the News and Courier says that the report refers to Nathanial Johnson, under whose direction nearly 200 years ago silk culture was thoroughly tried and proved eminently successful in South Carolina, and that conditions are at least as favorable to success now as they were in 1707.

In an interview in the New Orleans Picayune, Mr. C. A. Sherwood said recently: "The first silk factory to be erected in the South is the one at Fayetteville, N. C. Our raw material comes in via New York, and is shipped to Fayetteville, where it is made up. Even then the company has found it profitable to maintain the silk mill industry in the South, and I dare say others will cross the line and fine locations in the South."

Commenting on the above the Southern Farm Magazine says:

"These two items have been brought together as a suggestion that perhaps if South Carolina should make it necessary for the North Carolina company to bring in its raw material by way of New York, both the Fayetteville mill and the silk culturists might share greater profits."

**Tremendous Losses By the Flood.**

By telegraph to the Observer.

New Orleans, April 21.—The floods here caused, according to conservative estimate, three millions damages in central and southern Mississippi, exclusive of damage sustained to railroads. Columbia estimates her loss at half a million. Hickory, Miss., is surrounded and the Pearl river is higher than for years. Honey Island, the rendezvous of the noted train robber Busch, is under twenty feet of water. Half a score of towns are cut off from the outside world.

**The Plague Alarming in Australia.**

By cable to the Observer.

Vancouver, April 21.—Dr. Bartlett, of Sydney, a passenger on the steamship Miowera, said that when he left Sydney the plague was assuming alarming proportions. There were seven cases a day for several days, and it was spreading from the tenement district to other parts of the city and had got beyond the control of the health authorities. Outside of the city it is spreading rapidly and breaking out in unlikely places all over the colony. Around the wharves millions of fish and rats have died of the plague and are rotting on the beach.

**The United States and Turkey.**

By telegraph to the Observer.

Washington, April 23.—The American Charge D'Affairs at Constantinople reports that the Sultan has made additional assurances for a settlement of the claim of the United States. Officials say that this assurance does not change the situation as it is not very definite. It is understood the Sultan merely repeated to the Charge D'Affairs verbal acknowledgement of his liability and promise to pay the indemnity.

**A Train's Thrilling Trip.**

By cable to the Observer.

Winnipeg, April 23 ---The forest fires on the southeastern border are still raging. The entrapped train succeeded in breaking through the flames and arrived here this morning after one of the most thrilling trips in the history of railroading. A number of fugitives came along. The latter lost all their property and stood up to their necks in water to escape the heat. Two large lumbering outfits are known to have been burned. Of two hundred drivers and bushmen only thirty are known to have reached safety. The remainder doubtless are strugg ing in the woods for their lives. The total property losr is estimated at one million dollars.

**The Committee Reports Against Clark.**

By telegraph to the Observer

Washington, April 24.—The Committee on Privileges and Elections to-day submitted their report, unanimously finding the election of Senator Clark the result of a corrupt use of money and recommending that his seat be declared vacant.

**The Carter Case.**

The Supreme Court to-day decided to dismiss appeal of Capt Carter. He must serve the sentence.

**What It Costs England.**

By cable to the Observer.

London, April 24.

Officials of the treasury estimate the cost of the war in South Africa if it closes within three months, at six hundred and fifty million dollars.

The Prince of Wales with a large party is arranging for a yachting tour around the Irish coast. They will visit Belfast, Westport, Galway, Clove Island. The Prince and Princess will also likely be present at the Punchestown races in the fall.

**The Kentucky Republican Fugitives.**

By telegraph to the Observer.

Frankfort, April 24.—Taylor will return to Kentucky to face his accusers and demand an immediate trial on his indictment. This was announced in a telegram received from Taylor last night as was also the determination of the usurping Governor not to take advantage of the offer of Governor Roosevelt to protect him in the event a demand for him was made by Gov. Beckham. Taylor decided upon this course upon advice of ex Gov. Bradley and other Kentuckians who pledged themselves to defend him and force a fair and speedy trial. Jim and Jerry Howard accused of the murder of Goebel will never be taken alive. There was an attempt to capture them last night but the deputies who had the warrants beat a hasty retreat as the Howards were intrenched in the mountains and surrounded by over one hundred feudists who declared the accused should never be taken alive. Capt. Powers, brother of the Secretary of State, who is indicted was discovered in a hut in the mountains of Bell county yesterday guarded by ten mountain men. His position is impregnable and he cannot be arrested.

**Free to Inventors.**

The experience of C. A. Snow & Co. in obtaining more than 20,000 patents for inventors has enabled them to helpfully answer many questions relating to the protection of intellectual property. This they have done in a pamphlet treating briefly of United States and foreign patents with cost of same, and how to procure them; trade marks, designs, caveats, infringements, decisions in leading patent cases, etc., etc.

This pamphlet will be sent free to anyone writing to C. A. Snow & Co., Washington, D. C.

**Endorse Quay.**

By telegraph to the Observer.

By telegraph to the Observer.

**The Plague.**

By telegraph to the Observer.

Washington, April 25.—The Surgeon-General of the Marine hospital received a report from Surgeon Carmichael, at Honolulu, dated April 9th, in which it is stated that there has been but one new case of plague since his last report, the victim being a white girl and the case fatal. Carmichael reports the prospects encouraging, only one detention camp being open.

**The Claims Against Turkey.**

By cable to the Observer:

Constantinople, April 25.—In view of the steps taken by the United States in regard to the claims arising out of the Armenian massacre the embassies of Great Britain, France, Austria, Italy and Germany have asked their governments for instructions in similar cases.

**224 Houses Blown Up.**

By cable to the Observer

Yokohoma, April 25.—By the explosion of a powder magazine at Kam Shau, China, recently, 224 houses were demolished and 80 persons killed. A telegram received from Pekin says that Shet Ping, leader of the reform party has been sentenced to servitude for life.

**Dalgetty Still Bottled Up.**

By cable to the Observer.

Mazru, Tuesday, April 24.—On breaking bivouac this morning Generals Brabant and Hart discovered that the Boers, who had fallen back yesterday toward Wepener, had advanced during the night several miles nearer to Starus's farm, a favorable position for resistance. Dalgetty was severely attacked this morning by six guns, probably with the intention of preventing him from assisting the relief column. It seemed yesterday that Dalgetty had been practically relieved, but the offensive attitude of the Boers this morning shows that the idea was erroneous.

**British Seem to be Getting Boers in a Corner.**

By cable to the Observer.

London, April 25.—The British operations east of Bloemfontein increase in importance with each day's news. What at first appeared a diversion for the relief of Wepener, has developed into an operation on a large scale. The saving of the garrison of Wepener has become only an incident to a general movement having for its object the envelopment of all the Boers on Roberts's flank and which will probably merge into a general advance on Kroonstadt before it is finished. A cordon is now being stretched around the Boers on three sides. The British have about forty thousand men, the Boers not over fifteen thousand, so they must move quickly in order to escape being surrounded. One line of retreat, viz: by Ladybrand, yet remains open. Escape or capture should be determined on in the next few days. The re-ult will have an important bearing on the war.

**Dewet's Dorp Occupied.**

**Marriages in Wilmington.**

Two marriages were celebrated in Wilmington Wednesday, in which the people of Fayetteville are much interested.

From the Messenger we take the following extracts:

The home of Mrs. James Fairfax Payne, 108 South Fourth street, was the scene of a lovely wedding at 12 o'clock noon Wednesday when her daughter, Miss Fairinda Washington Payne, was united in marriage to Cameron Farquhar MacRae, Esq., of Raleigh. The parlor and other apartments of the residence were decorated with especial taste, smilax, palms and lillies predominating. Only the families and a few intimate friends were in attendance.

The groom, accompanied by his brother, Mr. James C. MacRae, Jr., as best man, entered from the hallway and joined the bride at the altar, where Rev. Robert Strange, D. D., rector of St. James Episcopal church, performed the marriage service.

The costumes of the bride and maid of honor were especially pretty. The bride wore an exquisite gown of white crepe de chene, en train, trimmed in tulle and applique. Her flowers were a lovely bouquet of bride's roses.

Miss Elizabeth Payne, sister of the bride, as maid of honor, was attired in a lovely costume of pale lavendor mousseline de soie and carried Marchel Neil roses.

The ushers were Mr. Samuel Hinsdale, of Raleigh; Mr. James Fuller, of Durham; Mr. Charles E. Taylor, Mr. George D. Crow, Mr. J. VanB. Metts and Ed. S. Battle, Esq., of Wilmington.

Miss Kate DeRosset, of this city, and Mr. Charles A. Scott, of Graham, were united in the holy bonds of matrimony at 6 o'clock Wednesday afternoon in St. James' Episcopal church, the rector, Rev. Robert Strange, D. D., officiating. There was a large and fashionable audience and the decorations and ceremonies were distinguished for elegance and simplicity.

There was a tasteful arrangement of Easter lillies, ferns and palms about the chancel and altar, and on the reredos were a number of candelabra with numerous brightly burning candles.

The ushers led the approach to the altar. They were Mr. Will Sidney, of Salisbury; Mr. J. H. Holt, of Burlington; Mr. E. H. Williams, of Fayetteville; Mr. G. L. Myers, of Richmond; Mr. R. N. Nash and Mr. F. A. DeRosset, of Wilmington.

Following the ushers came the maid of honor, Miss Lizzie Peck. She was gowned in a lovely costume of Nile green albatros with hat to match, and carried pink carnations.

The bride came down the aisle leaning on the arm of her father. She was attired in a costume of silver gray crepe de chene, trimmed with handsome lace and wore a hat to match. She carried an exquisite bouquet of bride's roses and lilies of the valley.

The groom and best man, Mr. H. W. Scott, of Graham, entered the church from the vestry and joined the bridal party at the altar. After the ceremony was performed they drove to the depot, where Mr. and Mrs. Scott left on the 6:50 train for a tour of places of interest north. They will make their future home in Graham, where Mr. Scott holds the responsible position of cashier in the National Bank of Alamance.

Toranto, April 20.—Geo. W. Wilson, the paying teller of the Merchants Bank, had reported to the manager that a package of ten thousand dollars had been stolen from his compartment. Detectives inspected Wilson's books and found two thousand short. He then confessed that he systematically stole since November, but declined to tell what became of the ten thousand package, which it is believed he handed to a confederate.

A LIFE AND DEATH FIGHT.

Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in Consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost $5 00 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat, Chest and Lung troubles." Regular size 50c and $1.00. Trial bottles free at B. E. Sedberry & Son's Drug Store.

**Postoffice Burglars.**

By telegraph to the Observer.

Savannah, N. Y., April 20—Burglars blew open the postoffice safe early this morning, securing three hundred in cash and four hundred and eighty dollars in stamps.

**The Croton Strike.**

By cable to the Observer.

Croton, April 20.—All is quiet here today. No more strikers have returned to work and it looks as if the contractors will be unable to get men to fill their places. Gen. Roe believes there will be no further trouble and will probably arrange for an early departure of the troops. Many of these have taken consilitis on account on the exposure of camp life.

**England's Troubles Increasing.**

By cable to the Observer.)

Acera, April 20.—Governor Hodgson telegraphs from Kumassi that other tribes are rising and again asks for assistance. The Bekwais, who have been loyal to the British were attacked by Ashantes and five hundred of them killed. It is feared they will be compelled to join the other rebellious tribes.

**The Flood Has Become a Calamity.**

By telegraph to the Observer.

New Orleans, April 20.—The flood is now considered to have reached the proportions of a calamity. There are now here not less than five hundred waterbound travellers unable to return home. Partial returns of damage run into the millions. The streams are still rising and rains continue and the tie up is complete on the Illinois Central and the Yazoo and Mississipi Valley railroads. The New Orleans and Northwestern has been unable to move trains since Monday and doesn't know when they will be able to resume. The East Louisiana and Mobile and Ohio is paralyized and business is at a standstill on account of a lack of mails. Four persons were drowned near Meridian and two near Hattiesburg, Miss. The Chickasaw is raging near Enterprise, and the Academy and other buildings demolished.

**Taylor Indicted—A Stormy Scene.**

By telegraph to the Observer.

Louisville, April 20.—Information has been received here that "Gov." Taylor has been indicted as an accessory before the fact for the murder of Mr. Goebel. The indictment was found yesterday by the Franklin county grand jury after a stormy scene, which came near resulting in a personal difficulty between Robert Sutter, the Democratic foreman of the jury, and W. B. George, one of the two Republican members. The vote of the grand jury stood ten to two for indictment, a strict party vote. After the grand jury had handed in its indictment they were ordered to retire. Judge Cantrell then handed to the clerk the indictments of Golden and Davis. The indictment of Taylor was not then given out.

**Glorious News**

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by B. E. Sedberry & Son, druggists. Guaranteed.

Lewis Ackerman, Goshen, Ind., says, "DeWitt's Little Early Risers always bring certain relief, cure my headache and never gripe." They generally cleanse and invigorate the bowels and liver.

# HOME CURE FOR BLOOD POISON.

**Beware of the Doctors' Patchwork; You Can Cure Yourself at Home.**

There is not the slightest doubt that the doctors do more harm than good in treating Contagious Blood Poison; many victims of this loathsome disease would be much better off to-day if they had never allowed themselves to be dosed on mercury and potash, the only remedies which the doctors ever give for blood poison.

The doctors are wholly unable to get rid of this vile poison, and only attempt to heal up the outward appearance of the disease—the sores and eruptions. This they do by driving the poison into the system, and endeavor to keep it shut in with their constant doses of potash and mercury. The mouth and throat and other delicate parts then break out into sores, and the fight is continued indefinitely, the drugs doing the system more damage than the disease itself.

Mr. H. L. Myers, 100 Mulberry St., Newark, N. J., says: "I had spent a hundred dollars with the doctors, when I realized that they could do me no good. I had large spots all over my body, and these soon broke out into running sores, and I endured all the suffering which this vile disease produces. I decided to try S. S. S. as a last resort, and was soon greatly improved. I followed closely your 'Directions for Self-Treatment,' and the large splotches on my chest began to grow paler and smaller, and before long disappeared entirely. I was soon cured perfectly and my skin has been as clear as glass ever since. I cured myself at home, after the doctors had failed completely."

It is valuable time thrown away to expect the doctors to cure Contagious Blood Poison, for the disease is beyond their skill. Swifts Specific—

**S. S. S. FOR THE BLOOD**

—acts in an entirely different way from potash and mercury—it forces the poison out of the system and gets rid of it entirely. Hence it cures the disease, while other remedies only shut the poison in where it lurks forever, constantly undermining the constitution. Our system of private home treatment places a cure within the reach of all. We give all necessary medical advice, free of charge, and save the patient the embarrassment of publicity.
